

What's the SKINNY on Cellulite?

COMPANY	PRICE	PRODUCT	PRODUCT INFORMATION
ESTÉE LAUDER 6.7 oz 	\$52.50	Slim Shape	A clinical test shows a significant slimming effect around the thighs of up to 1 inch in just four weeks. 2 out of 3 women said skin felt firmed and toned based on a 102-person test over a 4-week period. <i>Permanent resulted noted.</i>
LANCÔME PARIS 6.7 oz 	\$52.50	Body Sculptesse	This gel treatment leaves your body looking redefined and firmer. Unique complex tones and tightens, leaving skin supple and smooth. Penetrates skin's surface to restore firmness and definition. After 4-week study: 61% reported body surface was tighter, 57% indicated skin texture improved and feels more taut. <i>No permanent results noted.</i>
ARBONNE[®] INTERNATIONAL 8oz scrub 6oz cream 	\$85 for the set	Figure 8 Vanish	Smooth out skin with this daily, synergistic, 2-step system that provides the ultimate defense for visually diminishing the effects of cellulite dimpling. The Figure 8™ 2-Step Cellulite System incorporates clinically-proven ingredients that effectively combat the visual signs of cellulite. This 2-step system also has U.S. and Swiss patents pending. <i>No clinical data presented or permanent results noted.</i>
SHISEIDO 6.7 oz 	\$50	Body Creator Aromatic Anti-Cellulite Gel	This lightweight, refreshing hydro-gel glides on smoothly and creates a pleasant cooling sensation on skin. Formulated with SLM Fragrance, this advanced sensory technology gives an intensely refined, smooth and defined look to the body. Contains SLM Fragrance, sense-stimulating combination of spices and grapefruit. Use daily. <i>No permanent resulted noted.</i>
MARY KAY[®] 8oz cream 5 oz gel 	\$55 for the set 	Cell-U Shape Contouring System	The system's powerful mix of ingredients, including botanicals, helps level out lumps and bumps and leaves skin feeling perfectly hydrated all day long. And, no need for any heavy-duty rubbing—just gently massage into skin as you would a body lotion. Extensive testing found that innovative ingredients: reduce amount of cellulite-causing cells, stimulate cellular activity and strengthen skin's support system so cells are less able to break through causing dimpling on the surface. 12 week independent clinical study showed 7 out of 10 women lost 1/2 inch on each thigh and had less visual cellulite. 81% had firmer skin, 100% had smoother skin. <i>Permanent resulted noted.</i>
