

Which Face Looks the Best to You?

Do you want to look your best just some-times or all the time? Learn the best eye makeup technique for your eye shape and which are the right cosmetics colors for your skin tone and favorite outfits. Your Mary Kay consultant has access to computer-ized information to help you look your best everyday!

Bare Face **Foundation, Concealer, and Lipstick** **Foundation, Concealer, Lipstick, Eye Makeup and Blush**

*All photos were taken in the same light within just a few minutes between sessions. None of the photos have been enhanced in anyway.
 **Lynda Jackson has used Mary Kay products for 33 years!

*New Year
New You!*

In the 1st picture you notice dark circles and imperfections and the eyes appear smaller with a hooded droop. The 2nd picture has foundation and concealer which evens out the complexion and the lipstick gives the face some color. In the 3rd photo you notice the eyes more, they have more shape and definition, but the face doesn't have total balance because the blush is missing. Do you see how much fuller a face looks without blush? In the last photo you have total balance and makeup that blends and harmonizes with the outfit and Lynda.

Which look is the best?

*The right colors
make a difference!*

In the 1st photo Lynda is wearing the right make-up for her color family, but the wrong make-up for the outfit. In the 2nd photo she is wearing the right lipstick for the mauve top but both the top and lipstick aren't right for her. This effect produces a dull look. The last photo is the right lip color and outfit for Lynda! Can you see how the colors brighten her up? Color and Make-up can really make a difference! **Your Mary Kay consultant can create a look around your favorite outfit for a New You!**
